Full-Page Bleed Requirements

- Bleed size: 273 mm x 216 mm
- - Trim size: 266 mm x 209 mm
- Live area: 254 mm x 197 mm

Two-Page Bleed Requirements

- Bleed size: 273 mm x 425 mm
- - Trim size: 266 mm x 418 mm
- Live area: 254 mm x 197 mm each page
- Gutter size: 12 mm

Bleed Ad Notes

- For full page, keep "live matter" at least 4.763 mm from trim
- When using a great deal of text, we recommend enlarging the gutter area and decreasing the live area width —
Gutter: 19 mm
Live area: 247 mm x 190 mm

Digital File Requirements

PDF/X 1a files are the preferred digital format. If you cannot submit a file to these specifications please submit a PDF, Postscript, or EPS file with all high-resolution images and fonts embedded in the files. All required image trapping must be included in the file. Images must be SWOP (CMYK or grayscale), 300dpi. Include a 3.175 mm bleed with trim/bleed marks and colour bars. No application files are accepted.

Digital Proofing Requirements

A high-quality laser print is acceptable for black and white advertisements. All colour advertisements must include a SWOP certified colour proof. Failure to provide an accurate SWOP proof will require the completion of a colour release form. For a list of SWOP certified proofing systems see – swop.org. A copy of the ad must be faxed to +44 (0) 1223 326532.

How to Submit a Line Ad

Send your ad text to: ads@science-int.co.uk

Do not boldface or italicise any words. *Science* will edit and typeset ads according to *Science's* style. *Science's* style guidelines do not allow abbreviations. *Science* cannot provide proofs of typeset line ads. All recruitment line ads will appear under a *Positions Open* banner. *Science* makes every effort to group similar ads together but cannot guarantee positioning of any ad.
